

It Happened TODAY

The Nation

Health Minister Paul Martin sent off "Navy" to command. With a statement, "Every year, young Canadian lives are lost because of diphtheria, whooping cough, measles and mumps diseases of childhood. Safe and simple, immunization is the best way to protect our country from these epidemics."

PAUL MARTIN
...immunization for all!

A rent strike was broken by police in Montreal. The operators picked a down town "front" office, and advertised in the papers, but the men refused to leave the house of one of them. They took clients, showed them houses, took a down payment and disappeared.

The C.C.U. of Municipalities at their annual convention, favored the extension of civic franchises to Canadian cities or towns with Chinese ancestry. Said one speaker: "We must show that we will not allow discrimination on democratic principles."

John Diefenbaker, MP for Lake Centre, said he will be announced within the next 10 days whether or not he will contest leadership of the Progressive Conservative party. He will tour eastern Canada before making a decision.

The two tribal Class destroyers of the Canadian Navy, HMCS Nootka and HMCS Kootenay, Canadian warships to enter Hudson Bay, are expected to arrive at Port D'Orleans, Quebec, on their way, with the earlier Maingat, paved a surprise call to the port of Churchill, Manitoba, Wabash Bay, where they gave the Eskimos medical treatment and repaired the radio of Father Schneider, Roman Catholic missionary.

Greta Garbo, who came from Sweden to the U.S. and movie stardom in 1936, tied her first papers for American citizenship. She has been a resident here for several years but is scheduled to return soon to do a picture based on the life of George Sand.

London, England, is faced with an acute shortage of telephone operators, mostly because most of the girls are in the service ranks.

There are now 650 vacancies and officials say girls are

needed to fill the 1,000空缺.

The final instalment of the "Secret Papers of Harry L. Hopkins," in Colliers magazine asserted that there was no secret agreement between the Russians to enter Berlin first. Hopkins is also said to have warned the U.S. that if it got involved in the Roosevelt model could not continue if American public opinion continued to deteriorate because of Russian decisions.

ALBUM OF THE
Week

OKLAHOMA

Musical Comedy by Rodgers and Hammerstein

Music by Richard Rodgers

Lyrics by Oscar Hammerstein II

One of the most brilliant vehicles since the gay comedies of the 1930's, the songs have entered the musical vocabulary at all times popular and for all time. The music, the mixture of music, poetry and humor make it a real comedy. The nature of the simple, folksy, natural music is typical of the music of America's native folk. It is a musical comedy that "two seats on the aisle" will be the most frequent and most charming feature.

Church Is Dedicated At Fort Assiniboine

BARRIED, Sept. 10.—The summer sun smiled again last Sunday afternoon for the opening and dedication of the new United Church at Fort Assiniboine. Inclement weather had postponed the original opening which had been planned for the previous Tuesday.

Unveiling the church and presentation of the keys was performed on behalf of the officials and congregation by Rev. George M. Taylor, Rev. Prof. George B. Card, M.A., D.D., and Mrs. G. B. Card.

Keys were received and returned to the custody of the congregation by Rev. W. H. G. Gossman, who then dedicated the church in the name of the Emmanuel Friends of the United Church of Canada.

Rev. R. Liley, student minister this year, accepted the keys and, along with others, cut the ribbon to whom a great deal of the credit for the building of the new church goes.

The service concluded with the singing of hymns.

JASPER PLACE SPEAKER

The guest speaker was the Rev. Gerald Larose, S.M.D., of Jasper Place United Church, Edmonton.

Rev. Prof. George B. Card, M.A., D.D., and Mrs. G. B. Card.

Organist was Miss Margaret Wester, district nurse and soloist was Harry Fawcett, Edmonton. The choir was conducted by Mr. G. O'Brien, Barber and Mr. J. E. No. 3, Jasper.

STUDENT MINISTER LEAVES

Following the service a very fast lunch was served by the ladies, and included a special contribution by the Alberta Conference of the Education Association.

Rev. Mr. Liley has stressed his appreciation of the co-operation and support he has received from the congregation.

Mrs. Walter Thompson remained for the people of Fort Assiniboine, and Miss Peggy Taylor, and his bride-to-be, Miss Peggy Taylor, of Edmonton, will be present.

Mr. Gossman, who has been with him a very handsome gift from the congregation and community.

Among the visitors present from

DISTRICT NEWS IN BRIEF

Ratepayers Okay Pact on Housing

LLOYDMINSTER, Sept. 10.—Voting on the plebiscite Wednesday the ratepayers of Lloydminster gave the town council the green light by a large majority to go ahead with their agreement with the Wartime Housing Limited to erect 100 houses for veterans and their families in that portion of the town.

Under the agreement, Wartime Housing Ltd., which is a crown corporation, will erect 50 houses in the area between the town and just south of the Jasper highway and east of the Meridian highway, one block of the public school.

There will be two types of houses of varying designs, one being a four roomed house with full basement at an estimated cost of \$162,000, the other a three roomed house with half basement at an estimated cost of \$87,500. These houses will rent for \$300 per month.

Preliminary work on the survey of the land will commence almost immediately, and when the ground will be levelled, streets and lanes built. When completed these houses will have running water, sewer, light and gas situated on well developed streets and sidewalks and will contain an HP unit for residential section of the town.

St. Paul School Has 461 Pupils

ST. PAUL, Alta., Sept. 10.—With a total of 461 men and district school children enrolled, the St. Paul school opened its doors on Wednesday, Sept. 1, after a two month vacation.

The teaching staff for 1948-49 is as follows: completed with nine teachers, there were no cases of tuberculosis reported in the school or district. It was felt by the school board to be wise to begin school as soon as possible in the immediate neighborhood, those in the Clover Bar district having closed until further notice while those in the Clover Bar district have been re-opened.

Work is still under progress, by the Department of Public Works, the school dining room, which is to be used for the school dining room, the kitchen, and the school office.

The ditch had been dug to the extreme south side of the village.

Botha School Re-Opened Sept. 1

EDMONTON, Sept. 10.—School reopened on Sept. 1 with the same staff as last term. Albert Berndt, principal, Sister M. Agnes, Sister of the Angels, librarian; J. A. Beauregard, grade 11 (21); J. A. N. Marquette, grade 10 (21); Sr. Marie Immaculate, grade 9 (21); Sr. Mary Immaculate, grade 8 (21); Sr. Mary Immaculate, grade 7 (21); Miss E. Boisjoly, grade 7 (21); Mr. D. Durand, grade 6 (20); Mr. Demers, grade 4 (31); Mrs. L. Landry, grade 3 (33); Sr. Ste. Genevieve, grade 2 (33); Sr. Marie de St. Joseph, grade 1 (32).

Miss M. Menier returned to the school where she will again teach the ensuing term. Miss A. Berndt, principal, and Mrs. N. Arsenault, vice-principal.

Miss M. Menier returned to the school where she will again teach the ensuing term. Miss A. Berndt, principal, and Mrs. N. Arsenault, vice-principal.

Mr. D. Durand, grade 6 (20); Mr. Demers, grade 4 (31); Mrs. L. Landry, grade 3 (33); Sr. Ste. Genevieve, grade 2 (33); Sr. Marie de St. Joseph, grade 1 (32).

Former Veteran Dies

VICTORIA, Sept. 10.—The community here paid its respects to the recently deceased Dr. Tommy Nikanoruk to win the Prince Edward Award from the Royal Canadian Legion for his services to the study of hematology, the study of the blood.

Dr. Nikanoruk died in his sleep at his home in Victoria.

Schiff King Dies

LONDON, Sept. 10.—Apr.—Prof. Mikhail Arkin, widely known Russian haematologist, is dead at 73. Tass reported from Moscow yesterday that he had died in Moscow. He was manager of the Bank of Toronto until he was transferred to Coronation Park, where he continued his researches for its opening and fittings decorated for its opening and fittings.

He was born in 1875 in Moscow and died in 1948 in Moscow.

Clifford King Dies

VEGREVILLE, Sept. 10.—Clifford King recently beat Dr. Tommy Nikanoruk to win the Prince Edward Award from the Royal Canadian Legion for his services to the study of hematology, the study of the blood.

King died in his sleep at his home in Victoria.

FIRST DELIVERY BY A PEDERSON

ROSALIND, Sept. 10.—Arvid Pederson delivered the first wireless of the 1948 crop to a long distance radio gear. No. 1 hard and yielded 34 bushels per acre.

Big Crowd Attends Edison Sports Day

EDMOND, Sept. 10.—The weather man was very considerate for Edison's Labor Day sports. A large crowd was on hand to witness the baseball competition. Five teams composed of Edison, Hillside, Wildwood and Wolf Creek took part in the district tournament. Peers taking the first prize money of \$200, Wildwood was second with \$100.

In the softball six teams were represented, including two from Entwistle and one each from Roseview, Carroll Creek, Wildwood and Foodland. The games came out in the day and ended with a successful conclusion with at Jimmy Peers.

Edgar M. Moulton was congratulated in the near-completion of their new garage. This building is to be a fine street front in appearance.

Cement has been poured for the new house, the when completed will be added to the various entertainment clubs already in town. From interest it would be good to see the new house ready for the winter season.

New Coal Mine Near Rosalind

ROSALIND, Sept. 10.—Wiliams brothers have opened their new coal mine six miles south of Rosalind.

Each ton of coal will produce the first load of coal. The seam is 5 feet 5 inches thick.

Montgomery Lyons has returned after spending a week in the mountains giving a scripture reading. Miss Trinder being absent. Following the scripture reading, a 15-mile-hole sky fleet.

Long Range Bomber

WASHINGTON, Sept. 10.—(AP)—United States says it is testing an experimental twin-engine naval bomber with a range of 1,200 miles. It was learned yesterday that it is more than double the effective range of today's carrier-based planes and approaches the range of a 5,000-mile sky fleet.

It's the ARMY for me!

"I'm the chap who likes to feel he's part of a going concern."

That's just one of the reasons why I joined the army and why I

recommend it to any active man. Just look at the good life

you lead in the army and the career you have ahead of you."

Adventure... Learning a useful trade... Holidays with pay... Present and future security

"It's the army for me!" "What about YOU?"

Ask the nearest Recruiting Depot or Armoury for enlistment particulars. Bring with you certificates of age and education. Veterans should write direct to the nearest depot listed below:

No. 10 Personnel Depot, Currie Barracks, CALGARY, Alberta.

Savings Bonds Offered Again

OTTAWA, Sept. 10.—(CP)—Another series of Canada Savings Bonds, which went on sale with a record amount of \$100 million, will go on sale again on Oct. 12. Finance Minister Abbott announced.

The new issue—the third—will be sold Nov. 7 this year and will bear interest at 3% for 10 years. The terms are the same as those of the last year's series, which was sold at a record amount of \$207,315,856.

The bonds may be redeemed at face value plus interest for 10 years. The terms are the same as those of the last year's series, which was sold at a record amount of \$207,315,856.

The Bears New Keeper

At this time every year the University of Alberta is gripped by what medical circles have established as being "football psychosis." It may never be as virulent as it was during the 1947 season, when the scholars and professors would pass in the midst of the most engrossing studies to scheme for tickets to a Golden Bear game against American teams.

However, the complex is still alive.

Today the average bookworm at the U is asking himself, as he crams for next week's supplemental examinations: "How will Don Smith make out in the new Golden Bear coach's?"

It was last week that a professor cut short his club paper on the symptoms of Parrot Fever, without completing his last sentence, to say:

"Maury Van Vilet never but Smith might."

A BOY'S HARDY CUP

Short of a team from Lethbridge, the Bears from Calgary Stampeder in this fair city to handle the Glories, Smith is probably the best man for the job. Alberta's alumni agree that in the main he already overworked McLean, who has been doing the coaching chores again. They feel it is good for the team and the alma mater that the man from Oregon, now a captain of the Alberta team, carries on his heavy task as Director of Physical Education.

Mr. Don Smith, from Port Colborne, Ontario, may indeed be the answer to bring back the fine college football team on the prairies. Today, there is a school of thought which holds that the 1947 victory was the Hardy Cup emblematic of emasculation between Alberta and Saskatchewan or drop dead in the undertaking.

I doubt if we will drop dead.

AN UNKNOWN PRESCRIPTION

Smith's greatest asset will be his desire to bring back the fine fundamental players. Van Vilet, the driver had his troubles with ex-service men, most of whom were not up to scratch. He will be the man to bring the Hardy Cup emblematic of emasculation between Alberta and Saskatchewan or drop dead in the undertaking.

It's true that Smith will never be a great driving force. Van Vilet was, and will it take him a few years to grasp his pretensions? He will be a good coach, probably will never master Van Vilet's pass defense, but he will be a good coach in the making.

But his smooth, astute attitude towards the players will compensate for his lack of knowledge in the beginning as he might otherwise write.

No one knows exactly what

it's true that Smith will never be a great driving force. Van Vilet was, and will it take him a few years to grasp his pretensions? He will be a good coach, probably will never master Van Vilet's pass defense, but he will be a good coach in the making.

Frank Currie's Trip East

Nets Young Goalie

Prevailing temperatures notwithstanding the hockey is boming merrily all over the west. For one thing the race to training camps is under way and by next week hardly a point of distinction will be had on his skates.

By way of keeping his Flyers in the picture Coach Frank Currie made an eagerly awaited announcement Thursday. He has signed a goalkeeper, one Keith Woodall from Guelph, Ontario, who has been with the young fellow comes well recommended and the coach of the Guelph team has set his high hopes that the hole left by the departure of Rollins to the pro ranks will be filled by Chicago Black Hawks family, will be adequately filled by Woodall.

ARRIVES NEXT WEEK

The newest Flyer acquisition is due to arrive in the city next week. Currie began negotiations with Woodall while in the east last summer, but it was all agreed that Rollins' departure with Seattle in the Pacific Coast League, was going to John P. McGovern of the Hawks. However, Spokane Spartans beat him to the young one and Pickett joined them.

It was then that Currie got busy all over again and hit the road again to find the hole left by the departure of Rollins to the pro ranks will be filled by Chicago Black Hawks family, will be adequately filled by Woodall.

McGovern of the Hawks. However, Spokane Spartans beat him to the young one and Pickett joined them.

It was then that Currie got busy all over again and hit the road again to find the hole left by the departure of Rollins to the pro ranks will be filled by Chicago Black Hawks family, will be adequately filled by Woodall.

ARRIVES NEXT WEEK

While at Currie also discussed the possibility of getting him to play for the St. Hyacinth camp next summer. Should he catch a plane with the pro team he will be a good prospect.

With Watt, Lane, Pettiner and MacPherson signed, the Flyer's line-up will be two victories to one.

Winners were in good style to count four times in the first week. The Flyer never looked like a team that could win.

Alex McGregor was on the mound for the winners while Howie Cutler stayed to the bitter end for the Parkers.

END OF SEASIDE

WITH FLYING DUTCHMEN

It was a similar story last year playing for Kitchener. Woodall was only with them for the first couple of months, but as the playoffs neared he was traded to the Flying Dutchmen. His work against Stratford Indians in the first round of the playoffs was a real opportunity for the enfeebled Dutchmen the series in straight games.

While at Kitchener he was placed on the bench, but as the playoffs neared he was traded to the Flying Dutchmen. His work against Stratford Indians in the first round of the playoffs was a real opportunity for the enfeebled Dutchmen the series in straight games.

While at Kitchener he was placed on the bench, but as the playoffs neared he was traded to the Flying Dutchmen. His work against Stratford Indians in the first round of the playoffs was a real opportunity for the enfeebled Dutchmen the series in straight games.

Last season, despite a slow start, he was third best goalie on the team. In 1947 he was second best, but he had 166 goals scored against him in 36 games, an average of 4.5 per game. He was a good hooker though with his mate scored 200 to 208 at the other end.

Tall and lanky, Woodall has a

New Flyer Goalkeeper**A Standout in Ontario**

By LEN TAYLOR

KITCHENER, Ont., Sept. 10.—In signing Kitchener's Ken Woodall, Edmonton Flyers have picked up one of the best money series goalies in the Ontario senior hockey.

In successive seasons Woodall has been largely responsible for putting the teams for which he played on the map in Ontario Hockey Association final rounds.

Woodall, now 22, played in the 1945 season with Kitchener Green shorts, a junior team, and in 1946-47 he again played the Flyers, eliminated a number of high rating opponents, including the OHA finalists before bowing to Hamilton Tigers in a narrow series which ended in double overtime.

Empire Tuna Team**In Second Place**

WEDGEPORT, N.S., Sept. 10.—(CP)—The giant bluefin tuna, so popular in the fall, has had a mighty year, according to the Empire Tuna Cup.

"We only know," said Lerner, "where they come to. They come to Wedgeport's Soldier Bluff and other areas along the Nova Scotian shore. This is the greatest tuna fishing grounds in the world."

Canada's waters in parts of the globe receive regular visits from the migratory fish, which sometimes weigh as much as 1,000 pounds.

WEDGEPORT, N.S., Sept. 10.—(CP)—Where the giant bluefin tuna go to spawn is something fishermen would like to know.

Michael Lerner, millionaire New York sportsman who is Wedgeport's world's richest tuna grounds off Wedgeport, discussed the matter Thursday while watching the fifth international tuna match.

Where the mammoth fish spend their time when they disappear from their known haunts in the fall has been a mystery for more than 100 years.

"We only know," said Lerner, "where they come to. They come to Wedgeport's Soldier Bluff and other areas along the Nova Scotian shore. This is the greatest tuna fishing grounds in the world."

Rex Barney Hurls No-Hit, No-Run Game for Dodgers**INDIAN PRINCE PAYS \$128,100 FOR COLTS**

DONCASTER, England, Sept. 10.—(AP)—The Maharajah of Baroda, the biggest spender on thoroughbreds in Britain since the war, Thursday paid 30,500 guineas (\$128,100) for two yearling colts.

With trainer Fred Armstrong acting as his agent, the Indian prince purchased one colt by Necco from the Doncaster Cross for 17,000 guineas (\$71,400).

For a colt by Hyperion out of Queen Christina he laid out 13,500 guineas (\$56,700). They were the highest prices paid at the Doncaster yearling sales.

Ted West 'Steals' Rotary Golf Show

Lloyd Greer Takes Runner-Up
Laurels in Annual Tourney

Long hitting Ted West more or less stole the show as the Rotarians staged their annual golf outing at Mayfair Golf and Country Club Thursday afternoon.

Playing over his home layout the was club champion in 1947 so knows more than just a little about what goes. West turned in an 18-hole effort of 75, which was enough to set him apart a little coming back to take 40 shots.

A five-handicap shot, West wound up with a net 73 to easily take the honors. It gave him a two stroke edge on the next closest to the field.

Runners-up position for gross honors went to another prominent Mayfair member, Lloyd Greer, who captured 88 strokes to get back to the clubhouse.

Cine 100 scored golf and this number was assigned to approximately 60 for the dinner and presentation of awards that followed.

Among awards night were those made to Dave Wood (most scored) and to the Philip Collett players in action.

Les Irwin, president of the Rotary Club, was in charge for the after-golf fun. Thursday's outing, played in near perfect weather, was well worth the most enjoyable in the history of the club.

J. Percy Page, one-sport-all-time favorite, was basketball coach, was chairman of the committee responsible for the staging of the highly successful affairs.

Harvesting the Modern Way Takes Just One Man and Two Boys

STEERING A TRUE COURSE in a field of golden grain is what farmer E. J. LaPétrie of Winterburn will soon be doing from behind this tractor-combine "tiller." Gone

are the huge crews and clamor of the giant threshing machines of yesteryear. Farmer LaPétrie harvests his 160-acre crop with the aid of his two sons.

HARVEST IS GREAT but the workers are few on the modern farm. Young John LaPétrie, 13, likes the feel of this No. 1 Northern Thatcher which just threaded on his father's farm. It runs 40 bushels to the acre.

LaPÉTRIE SENIOR takes the pause that refreshes while combining his wheat crop. He's enjoying coffee before another round of field. With the latest farm technology the machine does the rushing, not the farmer.

THIS STREAM of golden grain will soon be on the way to feed a hungry world. Oliver LaPétrie, 18, is loading it into his truck for transportation to a granary. Combines fill truck automatically. — Photos by Blaum.

Harvest Operations Make Rapid Progress in Alberta

Harvesting operations in all parts of Alberta are progressing at a rapid clip as farmers enjoy the best harvest weather in years.

On the prairies the province with approximately 50 per cent of the wheat crop already cut and about 40 per cent of the coarse grain.

In the Edmonton area between

50 and 60 per cent of the wheat has been cut and a big percentage is already combined. In some farms it is almost a month ahead of last fall when heavy rainfalls delayed the harvest for considerable time.

Continued fine weather is required in this area for some rains have delayed the growth of the green but ripening fast. Growth is reported

patchy in many districts due to seasonal drought.

In the Peace River area, however, the wheat crop has already been cut and about 20 per cent of the coarse grains.

A little rain in the area has delayed the cutting of the wheat but has not stopped it.

Over the rest of the prairies, grain growing areas harvesting is well under way.

Wheat weather is also being enjoyed in Saskatchewan and Manitoba.

Florist Delegate

Alberta representative at the annual convention of the Allied Florists' Growers' Association at Montreal is Miss Rose Hobbing, Edmonton.

R.C.E.M.E.-Reserve Force

4-H.A.B. WORKSHOP (B) 150 L.A.D. (C.)

For the first time in Canada, the R.C.E.M.E. has organized several Centres for young men over the age of 17½ who want to be in civilian life but are still trade which will be useful to them in civilian life.

Some of these centres are at Edmonton, Fort McMurray, and Grande Prairie. The others are at Lethbridge, Calgary, and St. Albert.

These units are located at Ballhead—102 Street and 109 Avenue.

All members are fully qualified in their trades and the equipment with which you train is the best.

A pickup service is operated which covers both sides of the city.

Parades are held every Friday night at 8:00 hours and visitors are always welcome.

Come out and see how Canada's new Reserve Force is training.

Any inquiries you may have will be answered by phone 23267.

Earn While You Learn—Join the R.C.E.M.E. (RF) and Learn a Worthwhile Trade!

THRESHING ON THE FLY is the function of the modern combine. E. J. LaPétrie is separating the wheat from the chaff on a 40-acre field from the relative comfort of a padded tractor seat. Stock teams and spike pitchers of

days gone by are conspicuous by their absence. Although combine can cut and thresh at same time LaPétrie prefers to make it in two operations. Opinion is divided among farmers as to the best way to do it.

KITES HAZARD NEAR AIRPORT

Edmonton youngsters who were warned by city police against flying kites and slingshots during the past weeks had another form of entertainment yesterday when numerous kites were released for a competition for flying kites in the Allan Gray school area.

Police acted on complaints that kite-flying in the vicinity was a hazard to plane landings

'Flying Wing' Glides Away From Namao on Trip East

Canada's experimental "flying wing" coasted off a huge runway at Namao, Alta., this morning behind an RCAF Dakota transport to inaugurate a history making flight.

The tailless glider appeared like a yellow leaf as it tons off in the bright sunlight and flies down.

It was starting on the first leg of a 2,500-mile flight that will take it to Aeroplane, Ontario. Two pilots are making the trip in the glider and Air Force and National Research personnel left in the Dakota.

POWER AND THERE IS NO RESISTANCE features such as fuelage, fuselage and tail will allow carrying of more cargo or greater speed with less power.

The tailless glider is hoped to be used for building of "flying planes" possibly to be used by Sqn-Ldr. D. J. Williams of Winter Experimental Establishment of RCAF Station Edmonton.

Opposite is P/Lt. Jack Ritch and P/W. D. Lyall will be wireless officer.

It was reported from Winnipeg at noon today that the flying wing dived down at Stevenson Field near 1728 Edgemont Street.

The glider is expected to remain there overnight before leaving for Aeroplane by way of U.S. naval base at Greenfield, Ill., and Toronto.

The long runway at Namao airfield which is seldom used for regular aircraft landing makes a suitable testing area for the craft during recent

Here Are Food Prices In Vancouver Stores

By Pennywise

VANCOUVER, B.C.—I don't know just how prices compare in Edmonton with ours in Vancouver, but I'll give you a rough idea of what we're paying for fruits and vegetables here right now, and I hope you won't find the differences swoon-making. Don't forget there are those freight rates to pay on goods you get from B.C., but your local grown items cost less. I take a powder! —I take a powder!

Incidentally, I hope you have some of the lovely green grapes that are so popular here. Mostly they're run by the Chinese who have an art growing AND selling them. You can buy them if you find yourself standing outside and just admiring the display. They're very good, and an eye for color and design, as a passion fruit, is called, as a passion fruit.

Right—here we have lots of peaches, though not quite ripe, which stand for Wedderburn, Valiant and Veteran, and they're rated very high in quality.

Between \$3 and \$2.00 will buy crate of them here, and they would be \$4.00 or two for two more. But don't wait too long, because

We've lots of fresh ripe though not quite ripe, the crisp kind of prunes that the song sings about. These do NOT have wrinkles. They're a plain dried fruit for preserving, by the very firm and cost \$2.00 a 15-pound "suitcase" which is a large cardboard case called No so good for jam.

We've a few blossom plums too, for those English people who don't consider life worth living without at least one plum hanging from their shelves. And I don't blame them. They run at \$2.25 for 15 pounds.

It's C.B. Bartlett pears that are holding up the spotlights at the moment, the very best fancy wrapped selling for \$2.45 for 45 pounds, and the same grade of the same variety for \$4.75.

The less expensive ones are fine for eating, but you can peel them and cut them anyway, and the only reason they're cheaper is that they're not marked, or not perfect as shape.

We're still joyfully inundated with those huge field tomatoes upon which live the month of

July, and the price is still \$1.00 a dozen.

Tiny babies digest sugar easily. It is added to a milk formula to make the cow's milk more like the human milk, the calf growing more rapidly than the lamb building elements than the human baby.

So water is added to the formula to dilute the protein and sugar is increased to approximate that in human milk.

At about six to ten months of age the sugar content can be reduced gradually until the time comes when he is having a healthy diet of cereal, vegetables of all kinds, whole grain breads, fruits which have extra sugar, so that the necessary sugar in the formula is less.

If the baby has a sore stomach and shows no interest in eating, adding the sugar content in his formula is a good way to spur the appetite.

It is satisfying to the appetite and may in large quantities deprive the child of the desire to eat.

All of these things are matters of personal adjustment. If a baby is a good not a bad eater, it is better to give him plain whole milk every day, unless he is a hungry child, no matter how much milk or food he takes the sun in the mouth, even up to the amount of one cup to keep him satisfied.

Our leaflet No. 22 "Formulas and Patterns"

By Pennywise

Very nice for the very young! Pattern 4506 is a perky pleated princess dress with its own panties and slips. This little one completes a complete outfit.

This pattern is easy to use, simple to rest, is tested for fit. Includes complete instructions and Canadian industry have lost millions of dollars worth of business in the last year.

Pattern 4536 in sizes 1, 2, 3, 4, 5, 6. Size 2 dress, 1½ yds. 45¢—3½ yds. 50¢—4½ yds. 55¢.

Send twenty-five cents (stamps cannot be accepted) for the pattern to: Private Label, 60 Front Street, W., Toronto, 1-A, Ont. Please allow a week or two days for delivery.

New Stamp Issue

LONDON, Sept. 10.—(AP)—A new Russian stamp will bear the portrait of Gen. Zhukov, secretary-general of the People's War Control Committee, who died last week. Moscow radio said yesterday.

Vera Thomson Weds At City Cathedral

All Saint's Cathedral was decorated with gladioli, asters and statice for the wedding service of Vera Margaret Smith Thomson and George Osborne Empey.

The bride is the daughter of Mr. and Mrs. Douglas Thomson and the bridegroom the son of Mr. and Mrs. Waldo F. Empey, all of Edmonton.

The Very Rev. Dean A. M. Trenholme, rector of St. Stephen's Cathedral, played the wedding music and during the signing of the register, Miss Forrester sang "Ode to Love."

Given in marriage by Rev. father, the bride wore a dress of chalk white satin with a pink net with a pointed banque lace Peter Pan collar, leg o'mutton sleeves which tapered to tiny points, and a wide hemline terminating in a train was edged with a floral piping.

A whitestarched headdress held a veil of embroidered illusion net to her head and she carried a bouquet of roses.

Mrs. G. C. Cranston was her maid-of-honor. She wore a dress of evening primrose taffeta complemented with matching mittens and a wide belt of floral lace with a flowered headress.

As bridesmaid Miss E. Empey was dressed in a pink taffeta tunic, completed with matching mittens and a Chapel veil held in place with flowers.

Karen, the maid of honor, was best man and usher was J. L. McLean, son of Mr. and G. C. Cranston.

Her father, Mr. and Mrs. Fred Thomson were a slate gray ensemble complemented with a corsage of Tulipan roses. Mrs. Empey was dressed in a pink ensemble with a white carnation corsage.

At a reception in the Jasper room of the Hotel Macdonald, a four-tier, wedding cake embedded in net and flanked by white tapers and carnations centred the bride's table.

Mrs. Roland Sladden and Mrs. C. Vance presided at the tea urn while Mr. and Mrs. Trenholme proposed the toast to the bride.

Gull-gray gabardine, was a favorite material for a honeymoon trip to Banff. She chose black and red accessories. Mrs. Ulmer will make their home in Banff.

Mr. and Mrs. K. E. Taylor of Lethbridge were out-of-towners at the wedding.

BACON AND EGG PIE

1/2 cup flour, 1 tsp. baking powder, 1/2 cup milk, 1/2 cup bacon fat, 1/2 cup butter (approx.).

Fry bacon, baking powder, salt and soda. Rub or cut in the lard, add enough butterfat to make a dough that will roll out easily.

Toss in a flat board and roll to a good sized, fairly deep pie pan, and press well around the edge.

1/2 cup lean pork, 1/2 cup fat pork, 2 tbsps. chopped onion, 2 eggs, 1/4 cup cream, 1/2 cup cheese.

Add eggs, well beaten, to the chops and the milk, and the cheese. Pour into the prepared lined pan and bake in a hot oven for 10 min., then reduce heat and bake until filling is set and nicely browned. Good either hot or cold.

Before World War I, there were more than 1,000 butcheries in London; today, the city has about 45.

Evelyne Strabel Weds At Lutheran Church

Gladioli decorated Trinity Lutheran Church and satin ribbons marked the guest pens for the recent wedding of Evelyn Stella Strabel and Mr. Wilson Stevenson.

The Rev. Dr. F. S. Oswald performed the ceremony and W. Watson of Jasper played the wedding music.

The bride is the daughter of Mr. and Mrs. A. Strabel and the bridegroom the son of Mr. and Mrs. R. Stevenson, all of Edmonton.

A dress of white muslin with a lace choker and the bride who was given in marriage by her father, it was styled with a scalloped neckline, net yoke, lily point sleeves, buttons down the back of the bodice and the full skirt terminating in a train.

She chose an embroidered veil caught at the head with a brooch and she carried a bouquet box marked with satin ribbon and rose buds. Her only jewelry was a pearl necklace.

As maid-of-honor Sheila Leslie wore a dress of muslin brocaded with a lace border. Miss Leslie, the bride travelled in a three-tier wedding cake centred the bride's table. J. Hines, the minister, proposed the toast to the bride.

For a honeymoon trip to Banff, Alberta, and Vancouver, B.C., the bride travelled in a three-piece checked suit with grey and white accents. Mr. and Mrs. Stevenson were seated in Edmonton upon their return.

Forces Join Planes
ON Sept. 10, 1948, the Royal Canadian Air Force personnel will join with those of the RCAF Sept. 18 in the annual fly-past to mark the anniversary of the 1940 Battle of Britain.

Joint Defence Talked'
FOR Scandinavia

STOCKHOLM, Sept. 10.—(Reuters)—The foreign ministers of Sweden, Norway and Denmark, meeting in Stockholm, decided to ask their governments to appoint experts to investigate the possibility of a joint defence of Scandinavia late this month. The foreign office communiqué reported some differences of opinion on problems of military security.

Richard J. Aristed Arrested
HONOLULU, Japan, Sept. 10.—(AP)—Gordon Kasagi, who had the second highest income in Japan last year, was arrested today on charges of being a Japanese spy and the theft of former military stocks.

Kasagi, who operated a rubber plant during the war, was accused in worth 10,000,000,000 yen (\$37,000,000 at the official rate).

DOROTHY DIX SAYS—

Most Older Children Reared More Strictly

DEAR MISS DIX—Why do so many mothers rear their older daughters so much more strictly than they do their younger ones?

In nearly every family Mother rules the oldest daughter with a rod of iron. She never has any liberty. But when little sisters grow up she is permitted to do as she pleases.

I am the mother of a daughter who is now in college. She has never had a boy friend because she has never been allowed to go out with anyone except her mother's approval.

She has never been allowed to have a boy friend except when she was chaperoned up to her classes. She hasn't been permitted even to go to the movies unless some of the neighbors are going with her.

She was never allowed to risk out her clothes or select her friends. Mother was right on the point, I think, in requiring everything for her.

Now that my oldest daughter has reached the boy and girl stage, I am thinking it is just as fair to her to be strict enough that she never permitted the youngest daughter to do as she pleases.

MORE PATIENCE.

ANSWER: Perhaps one reason is that the older children expect more from Mother when she says she doesn't like something. Another reason may be that the little "babysitter" has come along and she is so busy out with raising a family she has little courage and the energy to continue the strict rules for the younger ones who are determined to do as they please.

Puzzled Friend.

ANSWER: Perhaps, one reason why mothers are so much stricter with their older daughters than with their younger daughters is because by the time the little "babysitter" has come along, the older child is so busy out with raising a family she has little courage and the energy to continue the strict rules for the younger ones who are determined to do as they please.

MORE PATIENCE.

And, perhaps, another reason is that the older children expect more from Mother when she says she doesn't like something. Another reason may be that the little "babysitter" has come along and she is so busy out with raising a family she has little courage and the energy to continue the strict rules for the younger ones who are determined to do as they please.

It won't worth while to reduce Mama's fears by refusing to let her use them. It may not make her feel like a matron because she was not permitted to have a date when all the other girls were having them.

And, anyway, mothers just naturally thrust the role of family guru on their oldest daughters. They have to nurse Mama's babies, and get a bit of help with the housework through high school to send brother to college.

They never can think about marriage because they are needed at home.

ANNOUNCING A MOBILE SHOE SERVICE • FOR CHILDREN •

Available to you right in your own home by appointment

SLEEPY DRIVER of Seattle transit coach, J. C. Parker, dozed off while climbing a hill early Labor Day morning and crashed into telephone pole.

Transmitter of CBX Is Opened at Lacombe

CBX officials from eastern Canada completed a four-day visit to Alberta Thursday when they officially opened the new CBX transmitter at Lacombe for public inspection. The tour followed the official opening of the transmitter Wednesday night.

As luncheon guests of the Lacombe Board of Trade, the party was welcomed to the city by Hon. W. H. May, Tom Wilkes who pointed out that the coming of the powerful transmitter marked a new milestone in Lacombe's history. The transmitter, located in the electric light plant,

Plane Crash Victims Named

NAMES of three persons fatally injured when they leaped from the plane in which a Douglas transport which crashed about 30 miles east of Edmonton on Tuesday night were released.

They are Capt. Robert C. Dibble, a member of the guard company, including Major C. H. Burn, attended the luncheon. Mr. Burn expressed his disappointment that his voice was not carried to all Canada since he was addressing so many CBC officials.

Several hundred residents of the district visited the transunter site and the survivors were conducted on tours of the building by CBC engineers.

AMONG 5 JUMPING

The three victims were among five who jumped from the burning plane, which developed engine trouble and was returning to Edmonton. The aircraft began to have altitude rapidly and the five persons were ordered to parachute out.

It is believed that the three who did not jump were able to pull the rip cords in time, although all parachutes were found intact.

Probable cause of the tragedy was that the plane had been enroute to Jasper when the plane was too low.

Mystery surrounding the mishap was that the passengers who jumped first and last were the ones who lost their lives.

CRASH SURVIVORS

They are Pte. A. R. Lawlor, of Ogunquit, Maine, who has been in St. Mary's Hospital at Camrose suffering from a fractured leg, multiple bruises to the face and kidney, and Col. Gilbert Hayden, commanding officer of the Canadian Research Laboratory at Red Bank, New Jersey. Col. Hayden has been in Col. G. E. MacLennan's office and reported Thursday to be suffering from a broken ankle.

Col. Hayden joined in the search and was first to notify officials here of the tragedy. He walked more than a mile to the nearest farm house where he found it was firmly believed that his ankle was only sprained.

Both survivors are to be evacuated today to their home in the United States.

BODIES BEING SHIPPED

Both of the dead men will also be shipped to their home towns for burial.

Only other person injured in the accident was Lieut. Bruce Dibbel of Philadelphia, pilot of the air craft who brought the plane down. He was two of the survivors.

Sgt. Wallace Christopheron of Toronto, N.Y., and Lieut. Thomas Williams, corporal of the R.C.A.F., managed to jump from the crashed plane before it burst into flames. Both men are in St. Mary's Hospital suffering from fractured ribs, fractured pelvis and possible internal injuries.

City Seeks Most Suitable Paving

Survey Being Carried Out By Engineer's Department

Survey of types of paving most suited to varying soil conditions in Edmonton is being conducted by the city engineer's department.

The survey is being made in conjunction with the civil engineering section of the University of Alberta.

The investigation sites will include sections of streets and stresses on concrete paving from the operation of trolley buses.

Preliminary surveys indicate that the soil at 14th Street and Jasper Avenue to determine the new eight-inch base.

Surveys also have been installed under the old three-inch paving at several stopping places.

Three Roads Barred, Six More Re-Routed

Nine highway closures, detours, and reroutings in Northern and Central Alberta were reported today by the provincial department of public works.

There are 20 grading, surfacing, and asphalt paving projects being worked on at 35 places on Alberta highways; these are the only route changes in this half of the province.

Roads are closed or detoured around the site of the following projects:

On Highway 44 between Blairton and Smith, a bridge under construction is closed to traffic between Upper Hay River Post and the north provincial boundary, highway 44.

Crossing to Cold Lake, traffic is using the old road because of grading operations.

Rotarians Golf

Edmonton Rotarians went golfing at the Mayfair Golf Course following their regular luncheon meeting in the McDonald Hotel yesterday noon.

EMERGENCY ROUTES

Here are the routes. Highway 2, between Edmonton and Clydes Corner, Detour is now 97 miles west of Edmonton. Crossing to Cold Lake, traffic is using the old road because of grading operations.

Other CBC speakers included Mr. L. G. McRae, manager of CBC programs and Mr. J. D. Boyle, Alberta member of the CBC Board of Governors.

Many visitors

A number of Red Deer officials, including Mayor C. H. Burn, attended the luncheon. Mr. Burn expressed his disappointment that his voice was not carried to all Canada since he was addressing so many CBC officials.

Several hundred residents of the district visited the transunter site and the survivors were conducted on tours of the building by CBC engineers.

OIL

Atlantic Well Will Be Sealed

By Cecil Jackman

Reports from the field indicate that plans are being made to plug with the completion of the south directional well at Atlantic regardless of the success achieved by injection from the west one. At least reports the south hole was being reamed in preparation for the running of casing. Water injection through the west well is being continued.

Possible sequences of plugging operations will be to replace the water with mud and replace the hole with a liner. It would be practical to put cement into the hole if full of water as Atlantic No. 3 is at present.

Normal abandonment procedures at a well is to place a cement plug opposite all porous zones to guard against future injection of water.

Space between the cement plug is left full of drill mud. At Atlantic the cement has been replaced with cement because of the lack of evidence accumulated to date.

The bore hole is also to be reamed for the gathering of this information will be appointed shortly.

Plugs have been drilled in various parts of the province and the records kept by the government.

TUBING SHORTAGE

A steel tubing shortage has held up progress at Central No. 10. No drilling has been done since Sept. 2000 feet down. Since the form produces dry gas only and is not considered important, production is not a matter of immediate concern.

As far as possible the gas will be sent to the surface.

Gas still escaping.

A small quantity of gas continues to enter to the surface around the water filled hole. It is believed to be entering from the bottom of the hole.

Since the cement plug is probably confined to the surface the casing and expanding gas would be expected to rise to the top of the hole. No oxygen would be available to support combustion and the fuel was clear of the ground.

Saturday's Shopping News! Store Opens at 9:30 a.m., Closes at 5:30 p.m. Daily, except Wednesday, 9:30 a.m. to 12:30 p.m. — To Call EATON'S, Dial 9-1-2 — See Window Displays!

The traditional task is on. Parents and teachers, kindergarten toddlers and grown-up grads, all marching to the same drum—time to get ready for school days ahead. And Young Canada's favorite store is ready with its well-known, well-informed selection of money-saving values in clothes, accessories and school supplies. From coast to coast—for greater value, efficient service, widest assortment—it's "First to EATON'S—then to School!"

Plaid Shirts

Attractive plaid cotton shirts for boys in school, at home, on the play ground. Printed with red and green check designs. Fully cut, coat style, button front, long sleeves and one breast pocket.

\$1.89
